The "Sea Breeze"

Another Hettrick innovation in high quality Cane Metal Furniture that alert merchants recognize as the profitable way to their share of this million dollar market.

The new "Sea Breeze" Cane Metal line is of rigid tubular and angle steel construction. Finished with the finest of enamels, electrically baked for a more durable finish. New modern end standards. Simplified easy-to-assemble frames. Stabilized ball-bearing suspension gliders with full leg seat. Attractive waterproofed seat pads to match the canopy included as regular equipment. Dinette chair seat pads at extra cost.

CATALOG OF AMERICA'S LARGEST MANUFACTURERS OF CANVAS AND METAL PRODUCTS

TO OUR 50,000 CUSTOMERS:

In presenting our New Catalog for 1939 to our many Customers we wish to humbly acknowledge and express our appreciation for the support you have given us during the past years. We shall labor untiringly to justify your full confidence for the coming years.

Confidence is the basis of all business success. For many years The Hettrick Manufacturing Company established and maintained a positive Guarantee of "Customer's Satisfaction or Money Back." That Confidence soon earned for us the crown of Leadership.

Leadership is proof of performance and a job well done. Any institution that would constantly lead must, by virtue of position, give Service and have a product of Quality which finds a ready market at a price within the range of the consumers' ability to pay, and a reasonable profit for the Merchant.

Our Aim is to give you 24 to 48 hour Service after orders are received. To do this we maintain a large inventory of forward stocks of many hundreds of thousands of dollars for you to draw on.

With our vast facilities, modern equipment, and efficient organization, we have met and successfully solved Canvas and Metal manufacturing problems for thousands of manufacturers, jobbers and dealers in nearly every conceivable line of industrial and commercial activity.

Each year we not only offer you the newest creations but at prices which established our large Toledo and Goshen Plant "Head-quarters," confirming the merited distinction we have won as the World's Largest Manufacturer in its field.

Very truly yours,

THE HETTRICK MFG. CO.

L. P. Smith

Green &	3 ft.	No. K-18788	1.40
Orange	3 ft. 6 in.	No. K-18789	1.40

Sold in full bundles only. Pat. S-25P

Again Proving Hettrick's Leadership in the Awning Field—Beauty-Quality-Low Price

When selecting Awnings, examine them closely. Make sure of the quality of the fabric; the accuracy and fastness of the striping; the size of the Awning and Curtain; the construction and workmanship; and above all, the reputation of the manufacturer.

Every Hettrick ready-to-hang Awning is guaranteed to be the exact size and quality represented. Specially constructed, high count, "Santa Fe" painted Awning fabric, striped to accurate register of the finest pigments obtainable. Seams are both lap-felled and double-stitched for longer wear. Rustproofed oval eyelets in wide top hem for easy installation and removal. Reinforced strain points.

Single Window Size (2'6" to 4')—Assembled on ½ in. band iron frame with sewed-on canvas loops for soft laid cotton pull ropes. Packed in individual protecting Kraft Envelopes, ten to the shipping carton. Shipping Weight (approx.) 2 ft. 6 in.—2¾ lbs.; add ¼ lb. to each size to 4 ft.

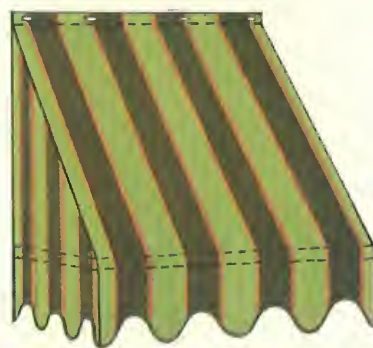

Double and Triple Window or Porch Awnings (4'6" to 8')—½ in. galvanized pipe frame. Packed with side arms in heavy wrapper. Front rod separate. Shipping Weight (approx.) 4 ft. 6 in.—11½ lbs.; add ½ lb. to each size larger.

Always a Volume Builder

... because here is value that cannot be duplicated. A three-color pattern that is offered to you at a two-color price. An old stand-by greatly improved and easier to sell. Stock the demanded patterns.

"Air-Flow" ROLLER PORCH CURTAINS

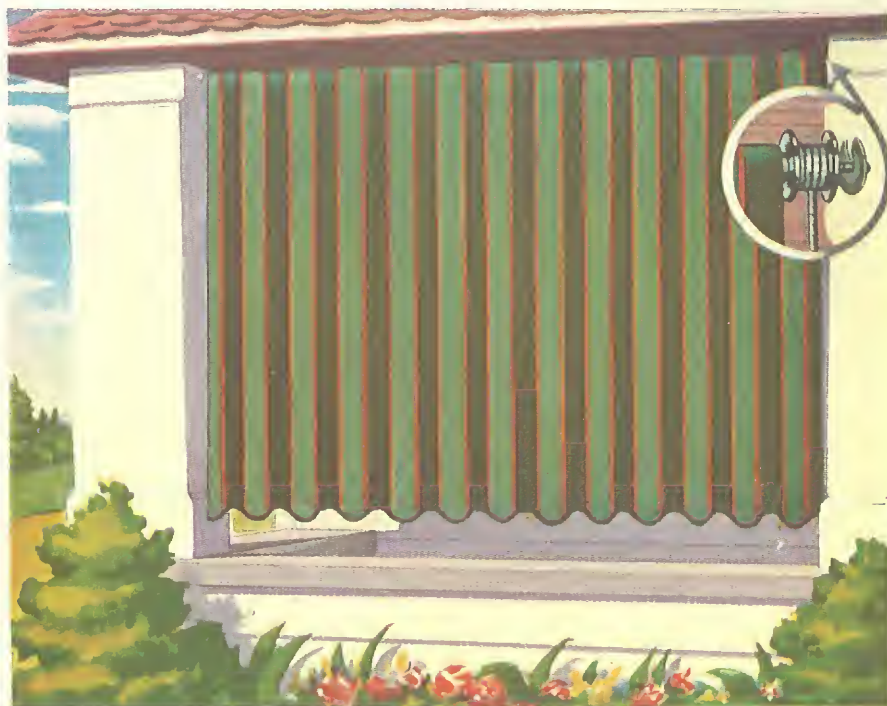

Reg. U. S. Pat. Off.

The Perfected Roller Curtain to profitably satisfy a waiting market at new low prices

Dealers who have already handled this new style Roller Curtain have found it so profitable and easy to sell, that we cannot urge you too strongly to stock and feature it. Last year's sales increases are a very good indication that the "Air-Flow" Roller Curtain will replace the old standard drop curtain.

Operating on a durable metal spool attached to a sturdy wood roller at top, the "Air Flow" Roller Curtain is not only easy to raise and lower but may be easily adjusted to any position.

Well made of quality "Santa Fe" painted awning stripe and available in fine attractive patterns to match our Ready Made and Custom Tailored Awnings. All sizes have a full seven foot drop including the 6 in. scalloped curtain. Equipped with wood slat in hem at bottom. Packed complete, ready to hang, with soft laid rope and rustproofed fixtures.

Awning and Porch COMBINATION 3 AT THE PRICE OF 1

\$3⁶⁶
ea.

No. K-3555

An exclusive Awning achievement developed, perfected and patented by Hettrick that already has won a marked place in the Awning field. This one item alone will add greatly in making your store the center of Awning attraction.

Patented pull-up style that operates on a wood roller with metal spool. Easy to pull up or let down as desired. Adjustable to any position with ease.

Six demanded sizes with full 6 ft. 6 in. drop plus 9 in. curtain.

All sizes up to and including 7 ft. are furnished with $\frac{3}{8}$ in. rust-proofed round iron frame. Larger sizes $\frac{3}{4}$ in. pipe frame.

Assembled, ready to hang, with all fixtures and pull ropes for quick, easy installation.

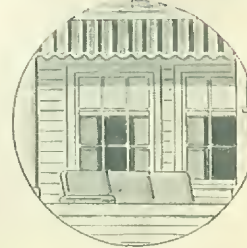

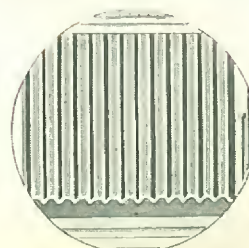

as a curtain

as an awning

as valance

Adjustable to
any Position

Another outstanding feature of this exclusive porch combination is the ease with which it may be adjusted to any position. Simply by raising or lowering, any desired elevation may be obtained.

Drop Curtains

DROP ROLL
CURTAINS

ADJUST TO
ANY POSITION

Everyone who has a porch is a
prospective customer

Every customer who purchases Awnings is a ready prospect for Curtains, particularly when you can offer the same pattern to match the Awnings. Here is an easy way to greatly increase the amount of each customer's purchase.

Skillfully tailored of the same fine quality "Santa Fe" painted fabric used in "Artistic Brand" Awnings. Equipped with rustproofed oval eyelets in wide top hem for fastening at top to porch. Pocket in bottom to accommodate wood roller. Seams all lap-felled and double-stitched for longer wear. Full 7 ft. drop, finished size.

Complete with soft laid cotton pull ropes, rustproofed fixtures and wood roller with instructions for quick, easy installation.

Sh. Wt. (approx.) 5 ft.—4¾ lbs. Add 1 lb. to each size larger

Porch Valance

EQUIPPED WITH
OVAL EYELETS

READY-MADE
READY-TO-HANG

**Thousands of yards sold annually
over the counter**

Each year thousands of home-owners realize Valance greatly enhances the beauty and value of the dwelling it adorns. Here is your opportunity, Mr. Dealer, to increase your sales and profits by establishing your store as Awning and Valance headquarters.

Colorful patterns to match every "Artistic Brand" and "Custom Tailored" Awning and Curtain. Three demanded widths—18 in., 24 in. and 30 in.—with tape-bound scalloped edges to harmonize with each pattern. Rustproofed oval eyelets spaced approximately twelve inches apart in wide top hem.

Prices quoted are per lineal yard in full pieces (50 yards) or half-pieces (25 yards). When ordering cut lengths, add 30c, list cutting charge, regardless of yardage.

Sh. Wt. (approx.) per 50 yd. pieces—18 in.—12½ lbs.; 24 in.—16½ lbs.; 30 in.—33½ lbs.

SEWED-IN CANVAS FLOOR

SEWED-IN BOBBINETTE DOOR

America's leading low-priced umbrella style tent. It sells itself and pays a reasonable profit. Consumer demand for a good quality waterproofed tent, that is low in price, is more evident today than ever before. Here is the tent that will satisfy those customers.

The "Trail Blazer" is guaranteed to be full size and of the quality represented. Designed by an experienced woodsman for greater outdoor comfort.

Material—A special high count green waterproofed tent drill was selected for the "Trail Blazer" because of its enduring quality. Every fibre has been treated with our exclusive "Arctic Bay" waterproofing compound, making the fabric as water-resisting as a light weight material can be.

Construction—All seams are lap-felled and double-stitched with genuine "Hickory" super strength cord, not ordinary thread. All points of strain are reinforced with extra goods. Rustproofed sewed-in iron rings for steel

frame at eaves and peak. The sewed-in canvas floor, awning extension, sewed-in bobbinet door, and bobbinet window equipped with a storm flap are included at this low price.

Frame—Staunchly supported by a mahogany stained center pole and four steel spreader rods that slip into the sewed-in iron rings at corner of eaves.

Dimensions—9¹/₂ ft. x 9¹/₂ ft. square at base; 7 ft. high at center; 5 ft. 6 in. high at eaves and 4 ft. square at eaves. Awning extension full width of tent, extending 6 ft. 3 in. outward.

Complete with all jointed poles, ropes and steel stakes at this one low price. Ready to set up. Weight complete—44 lbs.

The Ro-mer

With Wood Center Pole and
Awning Extension Poles

The Ro-Mer—A very well made, light weight waterproofed tourist tent. Designed for every Tourist, Camper and Sportsman by an "Old-Timer" to provide a dry, well ventilated, comfortable camp shelter in all kinds of weather.

Expertly constructed and skillfully tailored of a special tent material, thoroughly waterproofed by our famous "Arctic Bay" oil-tempered process. Two demanded sizes—7 ft. by 7 ft. and 9½ ft. by 9½ ft. in both Khaki and Green colors. Both have a 6 ft. 10 in. center height and 5 ft. 4 in. wall, 4 ft. square at eaves.

Lap-felled and double stitched seams with genuine "Hickory" thread (a specially constructed tent thread) for longer wear. Strain points reinforced with double goods.

Completely equipped with durable waterproofed "sewed-in" canvas floor—full tent width awning extension that extends 6 ft. 3 in. outward—rustproofed iron rings for becket loops and pole pins—insect-proof bobbinet door curtain and door—all necessary attachments (poles, ropes and steel stakes) as illustrated.

A complete extra room may be added (see inset) by simply attaching the extra storm or bobbinet curtains. Available at slight extra cost in any desired combination listed below. Become Tent Headquarters in your locality by featuring quality tents priced to sell quickly.

The Ottawa

With Adjustable Steel Tube Frame and
Extension Poles. No Center Pole

The Ottawa—a faster selling poleless model that has annually built extra profits for every dealer featuring this outstanding value. Pattern cut and expertly tailored from our famous "Arctic Bay" specially constructed oil-tempered waterproofed tent materials. Green color in one required and demanded size—9½ ft. by 9½ ft.

Rigidly supported by our patented adjustable steel tube frame made in one collapsible unit. No obstructing center pole. Four metal spreader rods at eaves hold the "Ottawa" smoothly in place, giving a tight, neat appearance. Ample head room provided by the full 6 ft. 10 in. center height and 5 ft. 4 in. height at eaves.

All seams are both lap-felled and double stitched with special "Hickory" tent thread and strain points reinforced with double goods for longer wear. Lower corners are provided with sewed-in rustproofed iron rings and rope becketts (not common grommets).

The 5 ft. by 2 ft. 6 in. front door is protected with a heavy insect-proof bobbinet curtain. Bobbinet window has protecting storm flap. Dealers everywhere report quicker sales and more satisfied customers by offering this outstanding tent value. Double your stock turn by selling the "Ottawa" from a floor sample.

A PROFITABLE TENT SEASON IS YOURS

Conforming to our policy of meeting and satisfying the demands of American sportsmen, Hettrick again leads the field with The Sportsman Umbrella Tent. A new development in quality and construction that will greatly increase your profits both this season and seasons to come.

Incorporating all the features of an umbrella tent plus added roominess and comforts provided by the spacious ventilated side extension. Constructed entirely of genuine "Arctic Bay" oil-tempered Olive Green tent drill with heavy waterproofed canvas, floor of the same color duck.

Available in one required size in two styles—No. K-5166 is 9 ft. 4 in. x 12 ft. and equipped with mahogany-stained wood center pole and awning extension poles. No. K-5266 is exactly the same size and construction but with our patented poleless frame,

and adjustable metal awning extension poles. Both styles have a 7 ft. 6 in. center tapering to the 6 ft. wall—4 ft. 8 in. square at the eaves. The wall at the side extension is 4 ft. high, providing ample room over a double cot.

The tent is made with rope beackets in all corners and canvas beackets on all sides. The two bobbinet windows, one on the side, the other opposite the bobbinet protected door, are equipped with inside adjustable storm flaps, providing perfect ventilation and storm protection.

Furnished complete with two awning extension poles and three side wall poles (¾ in. by ¾ in. by 4 ft.), ropes and steel stakes. Display this outstanding tent and profit both from increased sales and the reputation you can gain as Tent Headquarters in your locality.

Men with years of experience, who fully know tent requirements, claim the "Vista" to give more pleasure and protection than any other tent used.

The "Vista" not only protects the camper from insects and bugs, but is a refuge against rain and sun. Its clear vision, its awning extension, and air circulation, provide the comforts of home when inclement weather is at hand. "Vista" tents are exceptionally well made of finest quality Khaki color tent materials thoroughly "Arctic Bay"

waterproofed treated.

Patented adjustable telescopic steel frame with automatic lock-tight clamp. Two rustproofed steel upright poles and two for eave extension. Larger tents have extra strong tubular steel ridge poles. In stormy weather the entire top can be lowered and fastened down with snaps attached to tent. In our opinion "Vista" tents are the greatest value on the market, and we believe that eventually they will replace all other types.

RED and BLACK BULL

"TOUGH AS ELEPHANT HIDE"

Agricultural Belting

Endless Thresher and Tractor Belts

"ALL THE POWER—ALL THE TIME"

Costs Less
Lasts Longer

The Original
"All-Weather"
Belt

"Red Bull" Farm Belts—For almost 50 years "Red Bull" Belts have been used for efficient farm power operation. The reason—Confidence built on the satisfaction of the user; the quality in the Belt; the low cost service rendered; and the reliability of the manufacturer.

Why pay more when Hettrick guarantees satisfaction at low cost? Records definitely prove that Hettrick Canvas Stitched Belting has outlived other types; yet they cost less to purchase and to operate.

Because of the preservative oils which are sealed in with a special wear-resisting coating, "Red Bull" Belts do not dry rot when not in use. Oil or heat does not affect them. A better Belt from every angle.

For Hammer Mill Efficiency

Tests have convinced the most skeptical of "Speeder" service. Hammer Mill efficiency is assured with "Speeder"—a special high-speed, small pulley belt. It grips the pulley completely. Does not fly off the pulley when the going is "tough." Guaranteed to outperform other types, yet "Speeder" costs less.

"Black Bull" Farm Belts—The original "all weather" Belting delivering all the power all the time. Satisfies the most discriminating buyer. Does not react to temperature changes—operates efficiently in any weather.

Full smooth power at the start-off. Requires no breaking in. Always pliable, longer lived and capable of withstanding "tough going." Skillfully constructed of a full 32 oz. closely woven Belting Duck. Thoroughly impregnated with our exclusive black compound (no mineral oils) and tempered by a secret process. No worry about ply separation or dry rot. Reinforced, double-stitched splice and double-stitched edges.

Industrial CANVAS BELTING

Please pass this on to your production or maintenance department

Hettrick Belting deserves your investigation. In the field of package handling it has proven efficient and economical and many years of continuous service is more the rule than the exception. For slide bed use it is far superior to other types because of low friction—less power consumption.

Strong—elastic—resistant to those elements detrimental to other types—and low in cost. Industries, department stores, and mail order houses are boosters of Hettrick Belting for package and material handling. Write us on your next conveyor or elevator belt replacement.

Conveyor Efficiency

Package Handling

Materials Handling

"Malabar" Heavy Duty Conveyor Belting—This 48 in. 5-ply conveyor over 1300 feet long has set a real record of over nine years of service handling automobile fenders.

Light package service Belts referred to as "life-time" Belts. Recommended by leading conveyor equipment manufacturers for efficiency and economy.

Heat, oil and abrasion. This was a tough one but Hettrick licked it. Actual service records show longer service at low cost.

KNITTED TYPE COTTON

Padding

Genuine
RED & GREEN
Line
Quality

Clean live cotton knitted with a special stitch with double, two-ply yarn. This makes the padding stronger and holds each section of filling in place. Retains the natural softness of the cotton, forming a firm, springy cushion.

Available in two styles $\frac{1}{4}$ and $\frac{5}{8}$, widths up to 110 inches, the most popular width being 38 $\frac{1}{2}$ in. Rolls about 50 yards; half rolls about 25 yards. Prices, samples, and complete particulars on your request. Specify width, quantity and style preferred.

DOUBLE-FACED COTTON

Table Felt

in 54, 64 and 72-in. widths.

Write for
Samples
and Prices

The finest quality Double Faced Cotton Table Felt of exceptionally heavy weight and both sides very well covered. These are usually the first considerations of the customer when selecting this type of material before price.

Genuine "Red and Green Line" quality at prices that will meet the average pocketbook and pay a reasonable profit. Available in 54, 64, and 72-inch widths. Conveniently packed in bolts of approximately 30 to 35 yards each. Write for complete particulars in desired widths for this ready, over-the-counter seller.

QUALITY CANVAS BASKETS and TRUCKS

No. K-15

Canvas Baskets, Hampers and Trucks for Department Stores, Laundries, Hospitals, Institutions, Mills and Factories; built to withstand the strenuous demands of modern industry. Nothing to break, work loose or come apart. No nails, splinters, or exposed joints to cause any damage.

Strong, flexible spring steel frame. Long wearing cover, of extra heavy closely woven duck, is heavier and stronger than usually offered at this price.

The electro-galvanized flat steel bottom holds the uprights in place at all times, never allowing them to spread. Standard models illustrated. If desirous of special sizes or types, please write for full information.

No. K-12

A durable detachable wood cover hamper, with steel hasps that fit over a Malleable Iron Hook on one end and a Malleable Iron Staple on the other. Locked with padlock, harness snap or seal. Frame and body construction as No. K-12. Available with angle iron reinforced corners. Made with taper for nesting, unless otherwise specified.

The illustration shows the No. 12 Basket equipped with hardwood caster boards bolted to the outside runners. The simplest and best method of attaching casters. Any make, type or size caster with a flat top bracket may be attached to these boards. The casters shown are stationary frame semi-steel wheel casters with thread guards, standard equipment. Other casters if desired.

No. K-19

A strong and very durable basket, built for hard service. Body made of extra heavy No. 1 Duck. Reinforced around entire top with leather. Corner and ends of seams also leather reinforced. Brass rustproof rivets throughout. Rustproof flat steel bottom. Full 2" x 1" runners riveted through ends to prevent splitting.

No. K-100

A well-built truck especially designed for Department Stores. Accordion type folding top easy to open, close and lock. Requires no additional space when opened. Corners have protecting rubber bumpers. No. 1 Closely Woven Heavy Duck. Standard equipment includes stationary frame, rubber casters, with thread guards.

"Arctic Bay"

THOUSANDS by AMERICA'S LEAD-

Are You Prepared to
PROFITABLE

Be Sure the **TARPAULINS** You Stock
Meet These Rigid Specifications:

1 High-grade, closely woven Cotton Duck. Genuine "Arctic Bay" Oil-Tempered Waterproofing. Actual weights per square yard before waterproofing listed only. Don't accept Duck substitutes or purchase covers based on weight after waterproofing.

2 "Arctic Bay" Covers are double-stitched with heavy quality "Hickory" cord. Sewed-in iron rings for tie ropes approximately 3 ft. 6 in. to 4 ft. apart. All sewed-in rings and strain points reinforced with extra thickness of material. Full "dog-eared" corners. All these points assure longer wear and satisfied customers.

3 Genuine "Arctic Bay" Waterproofing, by a special heat pressure, saturation treatment, is forced into the material, penetrating every pore and fibre. Inferior surface coatings merely add weight but do not improve waterproof qualities.
